

## Year Overview (2017-18)

	1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18	19	20	21	22	23	24	25	26	27	28	29	30	31	32	33	34	35	36	37	38	39
	14/8	21/8	28/8	4/9	11/9	18/9	25/9	9/10	16/10	23/10	30/10	6/11	13/11	20/11	27/11	4/12	11/12	8/1	15/1	22/1	29/1	5/2	12/2	26/2	5/3	12/3	19/3	26/3	16/4	23/4	30/4	7/5	14/5	21/5	28/5	4/6	11/6	18/6	25/6
									CPD Day											CPD Day			4 day week					4 day week			3 day week		3 day week					4 day week	
Year 1	Developing and maintaining relationships begins with an understanding of self.							Homes often meet the physical and emotional needs of their inhabitants.					Understanding the properties of materials helps people decide how to use them.							By communicating in various ways people deliver their stories to a range of audiences.					Living things depend on certain requirements in order to grow and stay healthy.					To function as a part of a community, individuals take on different roles and responsibilities.									
Year 2	Within a habitat living things share resources for growth and survival.							People celebrate important people, days, and traditions.					Transportation systems connect people and places.							By understanding formal elements of the visual arts, people can represent different emotions					Understanding forces can help people to make work easier.					Evidence from the past reveals our history.									
Year 3	By understanding how the body systems function, people can make balanced choices to live a healthy lifestyle							Significant features of a place help people orientate themselves					By observing the weather, people can identify patterns which inform their daily lives							People often use their experiences to develop and express creative thought					People can create practices to sustain the planet's resources					People implement systems for the production and transportation of food									
Year 4	Human relationships can be strengthened through tolerance, respect and understanding.							Organisms adapt within an ecosystem to survive.					Using imagination people can communicate a message through the performing arts.							Migration can change people's lives by creating new opportunities.					A planet's characteristics determine whether it can sustain life.					Services are designed and maintained to support a community's well being									
Year 5	Finding peaceful solutions to conflict can contribute to a better quality of life							Artists extend their creativity by taking inspiration from the work of others					Consumer demand can change the type and price of goods available in an economy							An understanding of the properties of light and sound helps people make sense of phenomena in the natural world					People can learn about civilisations by analysing evidence left behind					Rituals, traditions and artefacts can provide a window into the beliefs and values of a culture									
Year 6	Personal identity contributes to an appreciation of the aesthetic							Government systems can promote or deny representational decision making					The way people use energy impacts the Earth							Human motivation to explore can bring about consequences for others					Individual and group action makes a difference to how societies uphold human rights					People manipulate materials to suit a purpose
